## WORK EXPERIENCE

**Indian Institute of Technology, Bombay** | Campus Ambassador Remote | **May 2023 – Current**

- As a College Ambassador, seize the opportunity to showcase your college at Techfest, IIT Bombay. Serve as a vital link connecting Techfest with your esteemed college.

> Takeaway: Learn to do given tasks and act as an intermediary for the college and IITB.

**MoE's Innovation Cell, MHRD** | Member College | **May 2019 – May 2022**

- Arranged various presentations and called in guests for workshops like Internet 3.0, National Intellectual Property Rights Awareness Mission (NIPAM), etc.

> Takeaway: Clear cross team communication, Time Management.

**Internship Co-Ordinator** | Co-Ordinator College | **Jul 2021 – Aug 2021**

- Acted as a student coordinator for AICTE-Employability Enhancement Program through NEAT Scheme and AICTE Internship Portal.

> Takeaway: Leadership, tenacity, motivating oneself and my peers, executing ideas, taking responsibility.

## PROJECTS

- [E-waste Facility Locator \(Smart India Hackathon\)](#) | **Sept 2023**
  - Create a user-friendly website with location tracking and displaying nearby e-waste facilities.
  - Key features: Rewards credit points for particular precious metals in electronic devices
- **Annapurna (Food Waste Donation Management)** | **Jan 2023 – Apr 2023**
  - Create an ad hoc link between the person who “has excess” and the person “who needs.”
  - Firebase was majorly used. Geolocations of receiver and donor both were saved on cloud.
- [Still Photo Face Detection using OpenCV \(Python\)](#) | **Nov 2022**
  - Face detection using Python OpenCV module through appropriate use of Haar Cascade XML fileFace
- [Your AI Buddy](#) | **Sept 2021 – May 2022**
  - Your AI Buddy tries to help people improve their mental health.
  - It provides user with features such as an AI Chatbot, Meditate, My Goals etc.
  - It helps the user interact with chatbot, practice meditation in times of stress, prioritize his/her work respectively.
- [Hotel Feedback form using Advanced Java](#) | **Nov 2021 – Dec 2021**
  - This is GUI based Feedback form made using Java Swing. Various event listeners are added for making the UI interactive.
  - Implementation of various components like JFrame, JPanel, CardLayout, etc is demonstrated.
- [Funny Discord Bot \(Python/repl.it\)](#) | **Sept 2021**
  - This bot tells jokes when told to or when need be. Including different categories of jokes.
  - Saves and deletes your jokes in and from a database if you decide to do so.
- [Library Management System Using Java](#) | **Jul 2020 – Jan 2021**
  - Easy and understandable Library Management System (without Database connectivity)
